The History of Company

Kandal Group is a leading private company in Iraq which is duly registered under the

norms and regulation of the local authorities . Kandal was first established as Mr. Ahmad

Younis Amin Al Amedi Bureau for General Contracting in 1971 and continued working

under this name until 1985 as the name altered to Al Zabain Company for Construction

Contracts then to Ahmad Al Amedi Company .Finally the Company was reregistered in

1998 under the name of Kandal Group bearing in mind that the management board and

senior key staff in the Company remained same during the different stages and under

different names.

About us

Building on a background of extensive construction experience, Kandal Group

Construction and administrative team is knowledgeable in all parts of Iraq for all stages

of the construction process as the experience of our construction company allows us to

precisely plan and manage the construction process. Every step of the way of the project

management experience enables us to anticipate situations and correct the obstacles

before becoming costly problems.

Extensive experience working for owners and developers provides Kandal Construction

with valuable insight from the owner's perspective .In all periods, Kandal realizes the

importance of completing jobs on time and within budget in a business where time

literally IS money.

Kandal Group is one of the rare most able companies which can handle almost any project

within the framework of civil construction works such as, buildings, roads and bridges,

power stations, Irrigation, water supply and sanitation, hydro geological studies, and

researches and consultations in the above mentioned fields.

Among the highly qualified cadres and personnel of Kandal Group, there are a number

of civil, mechanical, and electrical engineers, geologists and surveyors who have spent

many years of their careers with various private and governmental establishments.

Extensive experience working for owners and developers provides Kandal Construction

with valuable insight from the owner's perspective . They realize the importance of

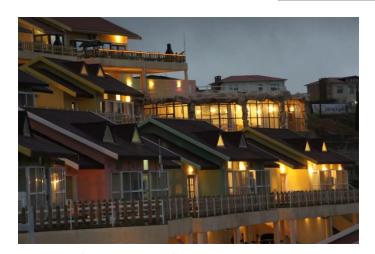

completing jobs on time due to the time table of the projects and within allocated

approved.
